

We assume a guarantee – according to our manufacturer guarantee statement – of 5 years for our products, provided that it can be demonstrated that the product was purchased and mounted through a franchised specialist craftsman. The guarantee period begins on the date of delivery from our factory. The statutory warranty period is contained in the guarantee period. Electronic components and lighting articles are omitted from this guarantee statement.

Even the most advanced printing technology cannot fully reproduce the exceptional finish and subtle colour schemes of our products. Only original KEUCO products can provide you with the optimum impression. These are on display in stores which supply bath-room fittings.

No part of this brochure may be reprinted or duplicated, even in part, without our explicit consent and without specification of the source manufacturer.  
KEUCO GmbH & Co. KG,  
Postfach 1365, D-58653 Hemer

We accept no liability for changes resulting from technical advances and necessary modifications of design and colour, nor from printing errors.

Our products are exclusively available through wholesalers for bath-room fittings.

## ELEGANCE

“Our aim has always been to develop quality products which distinguish themselves through their design and functionality – also in respect to longevity. The ELEGANCE collection is a good example for this because it became the highest selling accessories series for more than 40 years. But our aim of producing only high quality and long lasting products also means continual further development. The new ELEGANCE collection is based on this tradition and carries it forward. Out of this has come a furnishing concept that sets new standards – for coming decades.”

Hartmut Dalheimer, Managing Director/Engelbert Himrich, Managing Partner

Furniture fronts in high-gloss white, rich chrome and glass: a reduced-elegant interpretation of the many possibilities of ELEGANCE. Geometric basic forms and soft curves unite in harmony.

Clear lustre or stylish-elegant transparency: for the wash-basin you can choose between cast mineral or glass. The ELEGANCE single-lever mixer sums up the design concept: softly rounded lines joined with clear geometric forms.

The chrome-plated fitting for the bathtub rim combines functionality and ergonomics with elegance. The detachable hand shower head is conveniently placed.

Time to get out of the tub or time to scrub down again? The beautifully shaped handle and the elegant sponge basket make it hard to decide. Handle made of solid, seamless material, sponge basket with detachable insert.

Possible solutions à la carte: Even the shower units can be flexibly adapted to your wishes. Because, the great variety allows unrestricted design options. And that is always a part of ELEGANCE.

Attraction on the wall: The solitary lamp illuminates to the sides with indirect light, its front is mirrored. The horizontal lights of the light mirror feature the same design.

With ELEGANCE, we have thought of everything – even your guests: For the smaller cloakroom there is a light mirror and wash-basin in size S. Below left: The lotion dispenser with single-handed operation, as well as the tumbler holder – both made of matt crystal with the same look.

Left: Just as with the larger models, the small sink base unit also offers much room for storage behind its hinged door. Right: The foamed soap dispenser supplies a fine mousse – this has a luxurious feel and is also economical with wash lotion.

“For a design to remain current over decades, doesn’t mean it has to do without contours. ELEGANCE has a very independent and modern feel, without having to keep abreast of the Zeitgeist. Naturally, this is a balancing act. But thanks to the right blend of vision and a sense of proportion we have, I believe, achieved a design classics are made off.”

Kerstin Wagner, Product Manager

With its different surfaces the bathroom furniture of ELEGANCE can be successfully integrated into a wide range of furnishing styles. Here striking, genuine wood fronts made of walnut veneer create an elegant-cosy atmosphere.

The chrome-plated stool with seat made of walnut wood demonstrates the consistent continuity of ELEGANCE. Right: Premium, natural materials in perfect harmony – glass, chrome and wood unite in this wash-basin ensemble.

Designed as if cast from one die: On the left the generous drawer under the wash-basin. It provides much room for the daily required utensils. Right: The mirror cabinet with two light shades.

Its inner value isn't the only reason why the mirror cabinet shines. The chrome-plated light shade illuminates the glass shelves and the reflective inner surfaces of the doors and the rear surface. Above the drawers, there is space for small items, a radio and two electric sockets are integrated. The radio has a glass operating panel with touch sensors as well as a digital clock. Even external audio sources such as an MP3 player can be connected.

Please note: All switches and sockets pictured in this brochure are continental fittings.

The shower fitting is available in many models – here with directly integrated shower head. Beautiful and easy to clean: chrome-plated sponge basket for corner installation with detachable plastic insert.

The comprehensive ELEGANCE assortment ranges right to the chrome-plated bidet fitting. To the right the closed paper holder, below a WC set with chrome-plated lid and convenient operation.

Long lasting quality, variety and flexibility make ELEGANCE the perfect choice. The COLORBOARD of the wash-basin – here with two top basins – is available in custom widths up to 1.80 metres. It can be easily adapted to many floor plans.

More information about the KEUCO COLORBOARDS can be found in the separate brochure or on the internet under [www.keuco.de](http://www.keuco.de)

Built in soap foam dispenser as well as integrated tissue dispenser and towel holder – useful details with lasting advantages: Fewer component parts means it is longer lasting and also more cleaning-friendly.

Light – at times for practical reasons, at times for pleasure: Thanks to KEUCO technology the cosmetic mirror illuminates the face intensively yet without glare. Right: With the large light mirror the lights, which are optionally available in red, radiate a pleasantly relaxing atmosphere into the room.

Ergonomics included: The sections where the COLORBOARDS joins up to the wall also come optionally with protected electric sockets.

The optimum functionality of the ELEGANCE collection provides you with new ways to use the room. The towel shelf finds its place right here in the shower area.
