ROYAL REFLEX

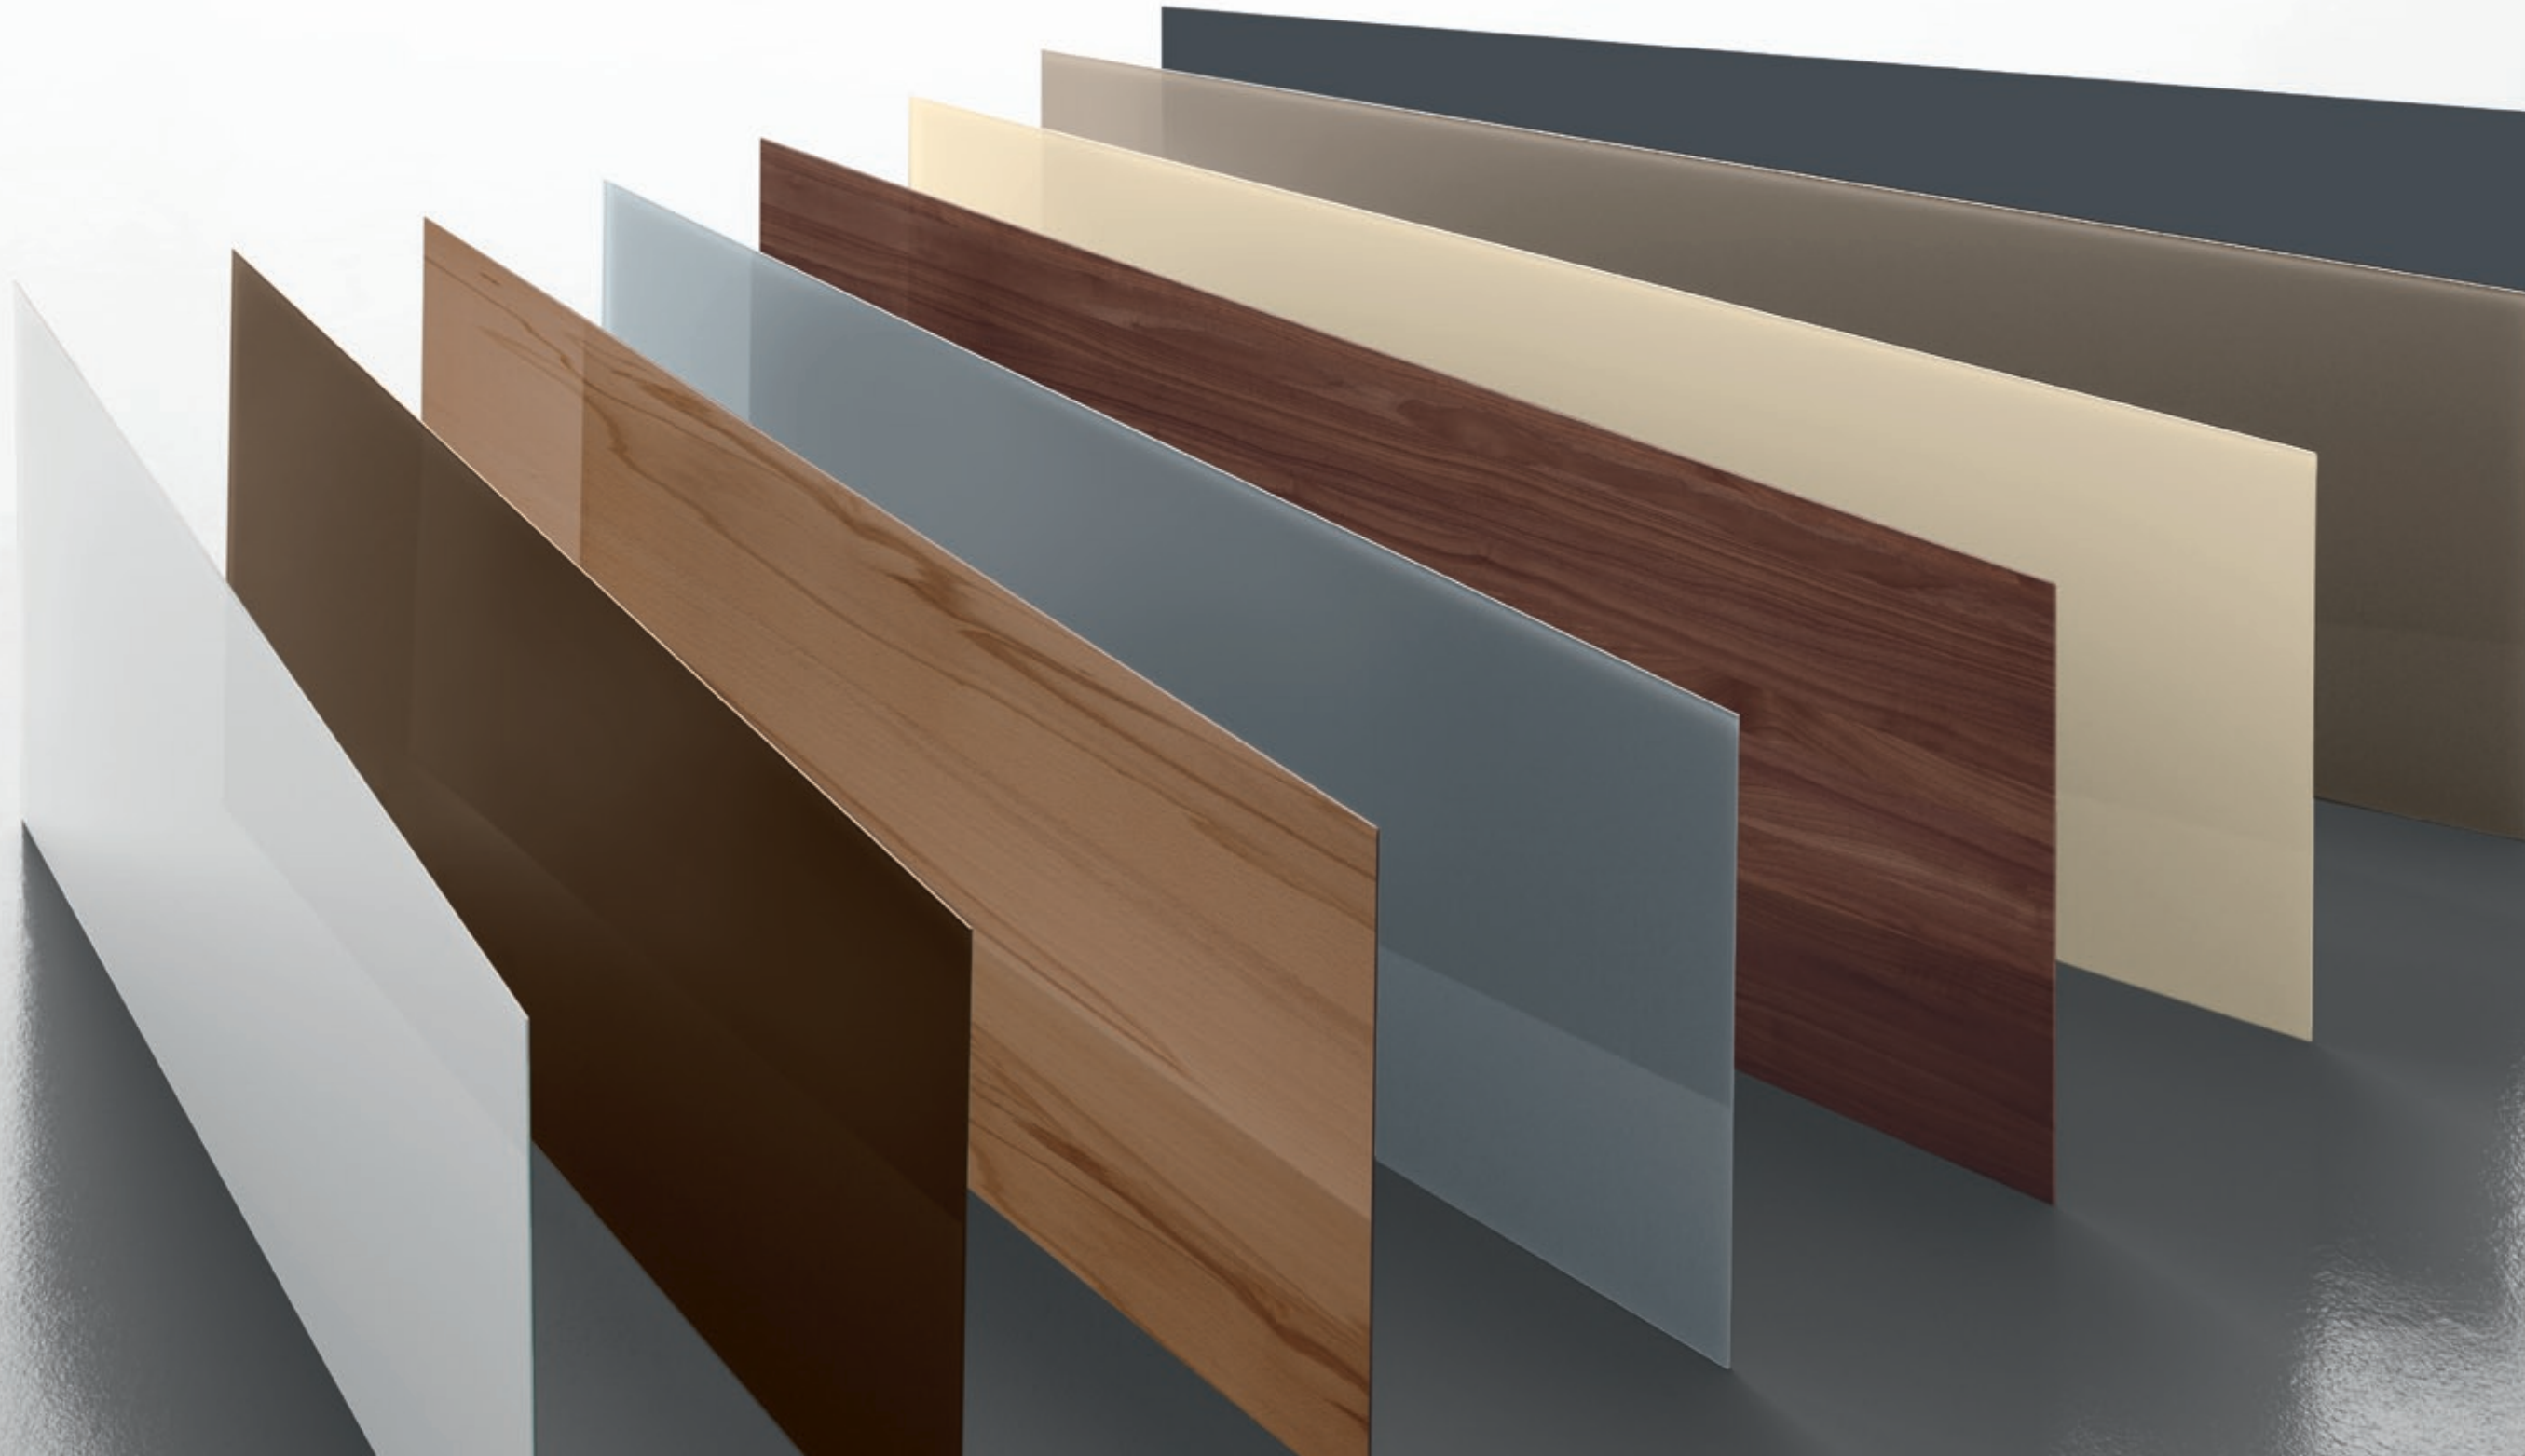

“The character of ROYAL REFLEX lies between the clear basic form and the sensation arising from its materials, details and colours. The effect is an overall impression of unobtrusive, understated luxury, with a sovereign style.”

Reiner Moll, Designer of Collection ROYAL REFLEX

Like no other material, glass combines aesthetics and practical characteristics. Glass is ideally suited for the bathroom environment. It is impervious to water, hygienic and easy to clean, it is robust and retains its shape and composition virtually forever. The printed and lacquered rear surfaces and decors of ROYAL REFLEX maintain their brilliance for many decades.

A light, floating overall feeling of classical modernity is created by clear lines and reflections of light. The wide range of surfaces and carcass permutations adapt individually to a variety of furnishing styles.

Left: Fitting PLAN blue, Accessories PLAN, right: Fitting and lotion dispenser ELEGANCE

Different materials in beautiful harmony: glossy glass front and matt carcass combined with a cast mineral washbasin. Perfectly co-ordinated with aluminium trim handle featured on the edge of the door.

Free-standing fitting PLAN, washbasin fitting and lotion dispenser ELEGANCE

Fitting and lotion dispenser ELEGANCE

Our passion for detail makes daily use of ROYAL REFLEX a pleasure not only in terms of aesthetics, but also functionality. Awaiting you behind the gently gliding front pull-out lies a sophisticated storage systems in which each bathroom utensil finds its suitable place.

Fitting and lotion dispenser ELEGANCE

Intelligent storage details: The suspended wooden box can be repositioned and is easy to take out. Magnetic dividers in the base can also be positioned to suit.

If glass is so important, then mirrors are indispensable. ROYAL REFLEX offers mirror cabinets and light mirrors in customary, outstanding KEUCO quality – matching all sizes from double washbasin right down to small sizes for the guest WC.

Glass shelves behind double-sided mirror doors offer plenty of storage space. Two interior electric sockets and one exterior light switch provide perfect functionality (Electrical components vary according to country regulations!).

Fitting and lotion dispenser ELEGANCE

Unobtrusive elegance: Just as with mirror cabinets, light mirrors are also available in six sizes. The mirror is framed on both sides by a vertical lighting element.

From the generously sized family bathroom to elegant small-scale apartments: With its wide range of furniture sizes, ROYAL REFLEX offers the right solution for every floor plan.

Fitting PLAN blue, Accessories PLAN

Two furnishing options are on offer for the tall unit. If preferred, the tall unit is available with a mirrored front. This transforms it into an eye-catcher, a full length mirror, and a way to give small bathrooms an appearance of more space.

Presentable appearance on a small scale: ROYAL REFLEX radiates generous elegance and its attractive overall impression convinces even in the compact guest WC – not least because of its matching light mirror in a slimline format.

Because of its projection, the vanity unit suits the conditions of small guest WCs perfectly.

Single lever basin mixer PLAN blue and accessories from the PLAN collection

The life blood of interior architecture is the consistency of its design. All components in the bathroom must be harmoniously coordinated to one another. Here, the perfect interplay of fittings and accessories is essential. That makes high demands on us in terms of attention to detail. But that is also what makes Keuco accessories so special.
