

We assume a guarantee – according to our manufacturer guarantee statement – of 5 years for our products, provided that it can be demonstrated that the product was purchased and mounted through a franchised specialist craftsman. The guarantee period begins on the date of delivery from our factory. The statutory warranty period is contained in the guarantee period. Electronic components and lighting articles are omitted from this guarantee statement.

Even the most advanced printing technology cannot fully reproduce the exceptional finish and subtle colour schemes of our products. Only original KEUCO products can provide you with the optimum impression. These are on display in stores which supply bath-room fittings.

COLORBOARDS

“COLORBOARDS bring radiance to every bath. The special aesthetic of the glass provides a fascinating tension between transparency and colour. This creates stunning baths that extend beyond the spirit of the moment. Taking the example of the four elements, fire, water, earth and air, we have effectively put COLORBOARDS in centre stage.”

Dirk Hagedorn, Direction of product development

The glass has been forged by the elemental force of fire. The clear geometry of the design shines like an architectural highlight in the glow of the flames. The coloured bath is redefined with COLORBOARDS.

Wash-basins and fittings from EDITION 300

Variations in airy light white combine with the plain language of the shape. Freshness and vibrancy like a spring morning breeze. COLORBOARDS interpret the three-dimensionality of the bath in a previously unknown way.

Sand becomes glass. Nature becomes design. Pure energy rules between them. A portion of it is won back through the perspective imparted by the COLORBOARDS. The bath becomes a place of regeneration – the broad beach of our dreams.

Wash-basin and fitting from the ELEGANCE collection

Water – the source of life. Symbol of cleanliness and freshness. The water at the centre of the bath dispenses strength and energy for the entire day. COLORBOARDS bring a unique perspective to the room and set the standard for a future-oriented interior design.
