KEUCO EDITION 11 with modular mirror cabinet system

Optimal planning freedom for mirror cabinets 700 mm to 2800 mm wide

KEUCO's new Edition 11 mirror cabinets - at the heart of the innovative furnishing concept EDITION 11 for superior interior design are the storage space solutions measuring between 700 mm and 2800 mm coordinating with the extensive furniture and washbasin range. The mirror cabinet EDITION 11 thus offers optimal freedom when it comes to planning.

The hinged door mirror cabinets from KEUCO's EDITION 11 range make bathroom design even more fun: suitable for the numerous furniture and washbasin dimensions of EDITION 11, they round out the KEUCO furnishing concept. Altogether three mirror cabinets – 700, 1050 and 1400 mm wide – are available. Furthermore, a modular mirror cabinet range in grid sizes from 350 mm upwards offers storage space up to a width of 2800 mm. The minimalist design impresses with its handle-free look and satin handle strip. The exteriors, made from one complete and seamless piece of aluminium, are proof of the highest design standards. The doors, mirrored inside and out, allow for perfect all-around vision from every position at the washbasin. At the same time, the intelligent lighting concept ensures three-fold lighting: as an atmospheric and distinctive ambient light; as a cosmetic light to illuminate the face when applying make-up or shaving, completely shadow-free and anti-glare from top to bottom; and as a cabinet light for the best possible illumination of the interior. The high-quality interior is reflected in the mirrored rear wall and clever details such as a universal shelf with an upstand for the safe storage of cosmetic articles. Totally in keeping with the times is the (optional) integrated MP3 or Apple Docking Station, suitable for every generation of iPhone and iPod devices as well as all conventional MP3 players.
