“Trend-setting innovations, premium design, long-lasting quality – that is what KEUCO, the brand for the bathroom, stands for. As a German brand manufacturer, we have been established worldwide for many years. From the ideal to the idea, from the idea to the innovation – KEUCO unites beauty in the bathroom with uncompromising functionality. Our products are in a class of their own. Their main characteristics are outstanding quality and longevity, excellent ergonomic features, innovative technology and exciting designs. That is why many of our products have been distinguished with renowned design prizes, among others also with the coveted red dot: ‘best of the best’. KEUCO – our passion for your personal well-being in the bathroom.”

Hartmut Dalheimer, Managing Director/Engelbert Himrich, Managing Partner

Mirror cabinets

ROYAL MODULAR is the sovereign of a combination of possibilities. Choose from a wide range of designs and tailor-made sizes, mirroring and lacquered crystal glass, and numerous illumination modules. Use two, three or as many modules as you like: Be creative, because a genuine dream bathroom can't be bought off the shelf.

Product overview, see pages 52 – 53

Size overview, see page 75

With the versatile modular system from ROYAL MODULAR, you can create your own perfect mirror cabinet – on the left, for example, an ensemble consisting of centre module, two side basis modules and two T5 lighting modules. The modules are available in various widths and with a height of 70 or 100 cm as desired. They are suitable for non-recessed and recessed wall mounting.

**Product overview, see pages 52 – 53**

**Size overview, see page 75**

The high level of quality and the excellent workmanship of ROYAL INTEGRAL make it remarkable in every detail – for example the softly closing doors. ROYAL INTEGRAL is framed by a surrounding chrome strip which is available in two widths to adapt to different installation situations.

**Product overview, see pages 54 – 55**

**Size overview, see page 75**

On the inside of its aluminium body ROYAL INTEGRAL offers an amazing amount of flexibility. Thanks to innovative technology, the glass shelves can be flexibly arranged on the slotted rear wall to make room for larger objects. In addition there are integrated functional details like electric sockets and the optionally available RDS radio with touch sensors.

**Product overview, see pages 54 – 55**

**Size overview, see page 75**

Its inner value isn't the only reason why the mirror cabinet shines. Right: The chrome-plated light shade illuminates the glass shelves and the reflective inner surfaces of the doors and the rear surface. Above the drawers, there is space for small items, a radio and two electric sockets are integrated. The radio has a glass operating panel with touch sensors as well as a digital clock. Even external audio sources such as an MP3 player can be connected.

**Product overview, see page 56**

**Size overview, see page 75**

The lift up doors on EDITION 300 mirror cabinets open upwards, giving a practical and elegant appearance. The mirrored surface is in one piece, so the effect is very generous. The elegant illumination with the mirror cabinets of EDITION 300 don't just ensure a distinctive overall appearance, but also perfect, glare free vision. Inside, the freely positionable glass shelves provide ample room for both flat and tall bathroom utensils. The sideways sliding interior mirror even provides an unimpeded view of the face when the lift up door is open. Indirect washbasin illumination is contained within in the aluminium body which has mirror surfaces on the sides.

**Product overview, see page 59**

**Size overview, see page 75**

EDITION Palais combines gently flowing forms with clear geometry – the contour of the mirror cabinet is a perfect example. The mirror, with its striking illuminated oval, can be slid sideways and offers an unimpeded view of an interior that widens the scope for flexible arrangements: for example at the bottom with the optional RDS radio which can be integrated as shelf (see picture below). The mirror cabinets are available for recessed or non-recessed installation. Mirrored sides are also a feature of this cabinet.

**Product overview, see pages 62 – 63**

**Size overview, see page 75**

The clear, independent forms of the PLAN collection are testament to the fascination they evoke, decade after decade, and already count themselves among the design classics of the modern bathroom. A choice is available for the body: it is available in aluminium, chrome-plated, stainless steel look and with mirrors on the sides. You will be impressed by the typically well-designed KEUCO storage concept inside.

**Product overview, see page 64**

**Size overview, see page 75**

Mirrors, mirrors and more mirrors: With the ROYAL PLUS collection, the materials make their big debut. Not even handles break the overall planar impression of the crystal mirror doors. The handles are placed underneath. Matt white, glass halogen spotlights provide bright, soft light. The aluminium body has mirrors on the sides. ROYAL PLUS is available in various sizes with two, three or four doors. This way it will fit in any bathroom.

**Product overview, see pages 66 – 67**

**Size overview, see page 75**

With ROYAL T3, it is your turn to be the lighting director. A clever illumination system is concealed in the minimalist, elegant exterior and brings every bathroom discreetly to life. Three light switches and a dimmer can be found inside. And now it's time for action: take one, for ...

**Product overview, see page 68**

**Size overview, see page 75**

#### ... Makeup lighting

Perfect makeup begins with perfect lighting – which is not an unwelcome thing for shaving too. The two vertical tubes illuminate the face gently and brightly without creating shadows.

#### ... Atmospheric lighting

Wellness while having a bath: the dimmable wellness light shines upwards and creates an atmosphere for relaxed day-dreaming.

#### ... Orientation lighting

During a trip to the bathroom during the night, sleep shouldn't be banished completely from your eyes by the bright ceiling lights. The emergency light switches on automatically when the light dims – with energy-saving, high quality LED technology.

ROYAL T2 is the perfect mirror cabinet for two. Because, it offers two of everything that one could ever desire: two polished crystal mirror doors, two electric sockets, two side lights and if desired, two interior drawers. Even the side lights have two uses: With the door open they also illuminate the contents of the mirror cabinet.

**Product overview, see page 68**

**Size overview, see page 75**

Walls extend right up to ceiling – so why not make use of this space? With heights of up to 84 centimetres, ROYAL 35 is one of the most spacious mirror cabinets in the KEUCO assortment. It is available in various sizes and as two or three door model. Above each of the doors there is an elegant light shade which serves both as washbasin illumination and as ceiling floodlight. It goes without saying that ROYAL 35 is also generously fitted on the inside.

**Product overview, see page 69**

**Size overview, see page 75**

The characteristic full mirroring makes it unmistakable: the KEUCO design classic, ROYAL 30. The mirror cabinets come in various widths and with up to four doors, so they are suitable for every wash area. That gives you the freedom to get on with your planning. And if you would like even more mirrors in the bathroom, ROYAL 30 is also available as tall unit.

**Product overview, see pages 70 – 72**

**Size overview, see page 75**

Corner mirror cabinets from the ATLANTA series don't just generate space optically. They also offer a great deal of space inside. With the integrated cosmetic mirror and the generous illumination they are perfect for makeup accessories, for example. If the model of 99 centimetres displayed here isn't sufficient for all the flacons, bottles and brushes, simply select the extra-large size which is also designed for wall mounting and has a height clearance of 160 centimetres.

**Product overview, see page 73**

**Size overview, see page 75**

The ROYAL 10 is the entry level model in the KEUCO mirror cabinet family. Since nobody likes to do without comfort, we have furnished ROYAL 10 with dignified features just like its bigger colleagues. Three vertically adjustable glass shelves, illumination, electric socket and light switch are also included. And if you want to establish an effective accent in the bathroom, you can also choose the indirect, upward pointing illumination.

**Product overview, see page 73**

**Size overview, see page 75**

The ROYAL T1's revolving door with mirrors on both sides is equipped with translucent rectangles along its upper edge – this innovative solution elegantly combines strong interior illumination with soft exterior lighting. Also inside: three freely positionable glass shelves, and an interior shaver socket.

**Product overview, see page 72**

**Size overview, see page 75**

Character and the ability to transform are not considered opposites with KEUCO LX. Both the glass jalousie and the body are available in materials and colours which can be freely combined – if desired even with a special finish of your favourite colour. The glass of the jalousie has a very special lustre because of the lacquer on the underside.

**Product overview, see page 74**

Lights and mirrors

ELEGANCE light mirrors provide both soft facial illumination and indirect room lighting – also separately switchable. They can be combined with colour fluorescent tubes to create atmospheric wellness light. ELEGANCE light mirrors adapt with ease to any bathroom condition thanks to the various sizes: from large size for the double wash-basin, to small models for the guest bathroom.

**Product overview, see page 57**

The round light mirror of EDITION 300 provides soft, indirect light. It can be combined either with a free standing washbasin mixer or, as shown on the left, with a matching integrated wall fitting. On the right are the equivalents in the minimalist design typical of the collection from the PLAN product family. As addition, the BELLA VISTA cosmetic mirror ensures the best view for makeup and shaving – it is unmatched with its exclusive lighting technology and distortion free optics.

**Product overview, see page 76**

If you prefer another lighting solution, the previously shown EDITION 300 round mirror is also available without illumination. The EDITION Palais light mirror, which can be seen on the right, is characterised by the flowing contour and the illuminated oval. The surrounding indirect lighting generates atmosphere. Here, too, the BELLA VISTA cosmetic mirror fits in as harmonious addition.

**Product overview, see page 76**

Light from all sides: Both models displayed here come from EDITION 300 and have each four fluorescent tubes concealed under the chrome-plated frame. They illuminate your entire face perfectly without any glare. Right: EDITION 300 politely makes room in the guest bathroom – this is how it demonstrates genuine hospitality.

**Product overview, see page 76**

Hinge door surfaces

-  Double crystal glass mirror
-  Red crystal glass, reflective interior
-  Black crystal glass, reflective interior
-  White crystal glass, reflective interior
-  Width according to custom finishing

**Centre module**  
1 revolving door  
as desired, opening on right or left  
for recessed or non-recessed mounting  
Body: aluminium, silver anodized  
Features:  
• Electric unit (as desired with electric socket and light switch or only with electric socket)  
• 2 vertically adjustable glass shelves  
• Attachment of a maximum 3 light modules  
Dimensions (w x h x d):  
• Non-recessed mounting 400 x 700/1000 x 170 mm  
• Recessed mounting 400 x 700/1000 x 160 mm

**Centre module**  
1 revolving door  
as desired, opening on right or left  
for recessed or non-recessed mounting  
Body: aluminium, silver anodized  
Features:  
• Electric unit (as desired with electric socket and light switch or only with electric socket)  
• 2 vertically adjustable glass shelves  
• Attachment of a maximum 3 light modules  
Dimensions (w x h x d):  
• Non-recessed mounting 500 x 700/1000 x 170 mm  
• Recessed mounting 500 x 700/1000 x 160 mm

**Centre module**  
1 revolving door  
as desired, opening on right or left  
for recessed or non-recessed mounting  
Body: aluminium, silver anodized  
Features:  
• Electric unit (as desired with electric socket and light switch or only with electric socket)  
• 2 vertically adjustable glass shelves  
• Attachment of a maximum 3 light modules  
Dimensions (w x h x d):  
• Non-recessed mounting 600 x 700/1000 x 170 mm  
• Recessed mounting 600 x 700/1000 x 160 mm

**Basis module**  
1 revolving door  
as desired, opening on right or left  
for recessed or non-recessed mounting  
Body: aluminium, silver anodized  
Features:  
• 3 vertically adjustable glass shelves  
Dimensions (w x h x d):  
• Non-recessed mounting 200 x 700/1000 x 170 mm  
• Recessed mounting 200 x 700/1000 x 160 mm

**Basis module**  
1 revolving door  
as desired, opening on right or left  
for recessed or non-recessed mounting  
Body: aluminium, silver anodized  
Features:  
• 3 vertically adjustable glass shelves  
Dimensions (w x h x d):  
• Non-recessed mounting 300 x 700/1000 x 170 mm  
• Recessed mounting 300 x 700/1000 x 160 mm

**Basis module**  
1 revolving door  
as desired, opening on right or left  
for recessed or non-recessed mounting  
Body: aluminium, silver anodized  
Features:  
• 6 vertically adjustable glass shelves  
Dimensions (w x h x d):  
• Non-recessed mounting 300 x 1600 x 170 mm  
• Recessed mounting 300 x 1600 x 160 mm

Product Overview

**Lighting module T5**  
as desired for recessed or non-recessed mounting,  
for mounting on the side of a centre or basis module  
(minimum 1 centre module with pull switch is necessary)  
Lighting:  
• Fluorescent lamp (1 x 14 W T5)  
Dimensions (w x h x d):  
• Non-recessed mounting 50 x 700 x 175 mm  
• Recessed mounting 50 x 700 x 105 mm

All modules are available for recessed or non-recessed wall mounting. For recessed mounting, a depth of 150 mm is necessary. The door closes to the left but can be changed on location.

**Attention:** For recessed mounting, please enquire with your installation technician regarding the correct measurements for the opening in the wall or plan this at [www.royal-modular.de](http://www.royal-modular.de) online.

**Lighting module halogen**  
as desired for recessed or non-recessed mounting, for mounting on a centre or basis module 300 mm wide or more (minimum 1 centre module with pull switch is necessary)  
Lighting:  
• Halogen illumination (2 x 20 W)  
Dimensions (w x h x d):  
• Non-recessed mounting 250 x 50 x 106 mm  
• Recessed mounting 250 x 50 x 106 mm

**Basis module**  
1 revolving door  
as desired, opening on right or left  
for recessed or non-recessed mounting  
Body: aluminium, silver anodized  
Features:  
• 3 vertically adjustable glass shelves  
Dimensions (w x h x d):  
• Non-recessed mounting 400 x 700/1000 x 170 mm  
• Recessed mounting 400 x 700/1000 x 160 mm

**Basis module**  
1 revolving door  
as desired, opening on right or left  
for recessed or non-recessed mounting  
Body: aluminium, silver anodized  
Features:  
• 3 vertically adjustable glass shelves  
Dimensions (w x h x d):  
• Non-recessed mounting 500 x 700/1000 x 170 mm  
• Recessed mounting 500 x 700/1000 x 160 mm

**Basis module**  
1 revolving door  
as desired, opening on right or left  
for recessed or non-recessed mounting  
Body: aluminium, silver anodized  
Features:  
• 3 vertically adjustable glass shelves  
Dimensions (w x h x d):  
• Non-recessed mounting 600 x 700/1000 x 170 mm  
• Recessed mounting 600 x 700/1000 x 160 mm

**Basis module**  
1 revolving door  
as desired, opening on right or left  
for recessed or non-recessed mounting  
Body: aluminium, silver anodized  
Features:  
• 6 vertically adjustable glass shelves  
Dimensions (w x h x d):  
• Non-recessed mounting 400 x 1600 x 170 mm  
• Recessed mounting 400 x 1600 x 160 mm

**Mirror cabinet**

for recessed wall mounting  
1 hinged door, optional opening either to the right or left, without illumination, optional with 8.5 or 15 mm wide covering strip

Body:  
aluminium, silver anodized

Features:

- 2 x 2 or glass shelves
- 2 electric sockets

Dimensions (w x h x d):

448/461 x 698/ 711 x 170 mm
