

Giardini pubblici con al centro la fontana e le aiuole fiorite.

The park close to train station with the fountain and in bloom flower-beds.

Postcards from Bra

In occasion of the tenth edition of "Cheese" (18/21 September), the biennial event organized by the Città di Bra and Slow Food, the association "Sei di Bra se..." had the idea to illustrate the recorded history of the city through the installation of 10 panels placed in Piazza Roma; protagonists are photos from the past (from 1900 to 1960), copies obtained from picture postcards that illustrate Bra.

Each panel has been positioned to let the images in a postcard have the same perspective of the current ones, in order to create a particular result: "how it was"/"how it is today".

Abet Laminati realized the panels using the digital printing technology.
